FIN TRIBUNE The Trenton True American gives ne following concerning the late robbery of the Trenton Bank vault: Mr. Lewis Lillie, now of Newark is the manufacturer of the heavy iron work which guarded the entrance to thursday Evc., May 23, 1872 A Clever Swindler.

A Clever Swindler.

A cremin learned judge in Mexical control of the bank safe, and Mr. Stryker, President of the bank, telegraphed to him to come and examine the place and give his opinion as to how it was wrought. We were introduced to Mr. Lillie and shown through the vault, and had the construction of the outer and inner door, and the bank also explained.

The outer door of the vault welf is one thousand pounds, and must have The outer door of the vault weights one thousand pounds, and must have taken at least five men to have laid it down by the side of the vault where the twas found. The burglars first proceeded to screw on the floor what is known as a step, or iron to hold a brace, which is, an; upright bar of wood. The brace was left at the side of the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglars had marked the door, and was viewed by many. The burglar had been door, and was viewed by many. The burglar had been do "The person I sent for it!" echoed the judge.

"Precisely, my dear, the very person you sent for it! You had not left the house more than an hour when a well dressed man knocked at the door and asked to see me. He trought one of the finest turkeys I ever naw; and said that on your way to court you met an Indian with a number of fowls. Having bought this one at a bargain, you had given him a couple of reals to bring it home, with the request that I would have it killed, picked, and put to cool as you intended to invite your brother judges to a dish of mole with you tomorrow. And, 'Oh! by the way, judges to a dish of molle with you tomorrow. And, 'Oh! by the way,
senorita,' said he, 'his excellency, the
judge, requested me to give yourself
the trouble to go to your chamber and
take his watch from under his pillow,
where he says he left it as usual this
morning, and send to him by me.'
And of course, me quertdo, I did so."
"You did!" said the judge.
"Certainly!" said the lady.
"Well," said his honor, "all I can
say to you my dear, is that you are as
great a goose as the bird is a turkey.
You've been robbed, madam; the
man was a thief; I never sent for my
watch; you've been imposed upon,
and, as a necessary consequence, the
watch is lost forever."

the door to be shut and locked,
would afford ample space for the injection of a sufficient quantity
of powder of the quality the
butgians left to blow open the safe.
This may not be known to bankers
generally, but if they will apply this
test to their vault doors and to their
safes, they will be able to satisfy
themselves whether their secretaries
are informed, a mechanical impossibility, the way safe and vault doors
are generally made, to fit them so as
to prevent the injection of powder,
without, as a great many are doing,
applying India rubber packing, which
will prevent it unless there is application of force. cation of force. The trick was a cunning one; and, the judge's good humor by a good dinner, it was resolved actually to have the turkey for to-morrow's dinner, and his honor's brothers of the bench to enjoy so dear a morsel. Accordingly, after the adjournment of countries of the day, they all maniput to brower, which was established by after a laugh, and the restoration of BOCK BEER BAT. in the olden times, was the official brewery, which was established by royal authority, and which for a long court next day, they all repaired to his dwelling, with appetitus sharpen-ed by the exceptation of a rare repast. Scarcely had they entered the sala and exchanged the ordinary salutatime was an important source of revenue to the Prince In the sixteenth century there was a great rage for new kind of beer, which was perfectly white, but which is not now made. SHAWLS, is, when the lady broke forth with gratulations to his honor upon the very of his stolen watch! It was to brew this white beer that the official brewery was established. Later, however, this old brewery was 'How happy am I," exclaimed she, hat the villian was apprehended!" "that the villian was apprehended!"

"Apprehended?" said the judge with surprise. "You are always talking riddles," replied he; "explain yourself my dear. I know nothing of thief, watch or conviction."

"It can't be possible that I have lars of the old browery are shut fast. lars of the old brewery are shut fast, and, as the tradition goes, the only being allowed on the inside is the but this is the story: About one olock to day, a pale and rather interesting young gentleman, dressed in a seedy suit of black, came to the perfection of the beverage. Two days before the opening occurs the official use in great haste-almost out of testing. In ancient times three lords of the cup were dressed in stag leather and seated upon a bench. They drank the 'Bock' from two pots, and if, at He said that he was just from court; that he was one of the clerks; that the great villian who had the authat the great villian who had the audically to steal your honor's watch had been arrested; that the evidence was nearly perfect to convict him, and all that was required to complete it was the turkey, which must be brought into court, and for that he of the country of the court of the cour Of later years a select company as had been sent with a porter by your sembles in the cellars to test the beer and are expected to do so without get-Of course I did! Who could have ting fuddled. As they come out of the vault they are waylaid by anxious crowds, eager to learn the quality of a judge?!! crowds, eager to learn the quality of the beer. Watch and turkey both gone Pray madam, what are we to do for a fir, music is provided, and the people But the lady had taken care of her nests, notwithstanding her simpleguests, notwithstanding her simplicity, and the party enjoyed both the loke and their viands. to be the best in the world. The rooms are dingy and forlorn, with the I Pole fats. immense casks tilted up in the cor-My friend, did you ever examine the the coarsest description, and the place regrant pole kat classly?

I guess not, they are a kritter who lowest beer shops. It is, however, the most democratic place in all Ger-They are builful things, but oh! side, the highest officers of the State drinking "Bock" with the humblest ow deceptive.

Their habits are few but unique.

They imild their houses out of earth, and the houses have but one door tew them, and that is a front door. When they enter their houses they don't shut the door after them.

They are kalled pole tata bekause it is not convenient few few left in the compared with other kinds of animal food, is not generally appreciated. Writers on antural history disagrace about the right length of the pole to be used, but I would suggest that the pole be about three hundred and sixty-five feet, long espeahily if the wind is in favor of the pole kat.

When a pole kat is suddenly walloped with a long pole, the first thing that he, she or it dux into embalin the air for many miles in diameter with an akrimonious offsktory forferhment which permeates the etherial fluid with an entirple word fluid with an universe word of the pole word than a complete word that the permeates the etherial fluid with an entirely original smell.

This smell is less popular in the fashionable world than Lubin's extrakt, but the day may come when it will be bottled up like musk, and sold for eighty-seven and one-half cents per bottle; bottles small at fluid.

A chemist of Providence, R. L., states that milk is more mutritions than meat. The nutritive value of milk, and beef state will the more in the fashionable world than a complete world the pole to the complete world than a complete world than a complete world the pole to the complete world the pole to the complete world the pole to be a complete world the pole to be about three hundred and sixty-five cents a pound, as a milk at twenty-four cents a pound, as a milk at fourteen cents a pound, as milk at twenty cents a pound, as milk at world years and complete the pole to be used to the complete world the pole to be used to the pole Nutritive Value of Milk. A chemist of Providence, R. L. states How this is did historians have left used. If the money expended for veal and pork were expended for milk, I doubt not that it would be an advan-This iz an accomplishment known tage both to the stomach and pocket, among humans, which it is said they have learned from the pole kats.

Pole kats also deal in chickens, Young tarkeys and gosiens.

They won't touch an old goose, they are sound on that question.

was said to be capital and the trial was for life. Kish-kaw-ko presided at the trial, and the testimony being introduced in due form the jury found the prisoner not guilty. The chief inquired of the foremon of the jery why they had acquitted the accused. The foreman answered that it was because he was not guilty according to their law. The prisoner was then sitting surrounded by the jury and covered with blankets so that he could not see what was going on; this being the usual mode of proceeding. Kish-kaw-ko quietly arose, took his tomahawk from under his blanket and drove it down into the head of the prisoner, killing him instantly, and saying at

AND ALL KINDS OF

took place about the time Mr. Roberts arrived in Detroit. A few years after this, Kish-kaw-ko and a son of his were both tried by an American Court in Detroit for the murder of another Indian here. They were both convicted and sentenced to be hung; but they had agreed between themselves to take poison, and would not be hung. The poison was obtained in the prison and the old chief kept his word, took the poison and died. The young man's courage falled him and he did not take the poison. He broke jall and escaped, soon after which, a pardon came from the President, J. Q. Adama, and thus ended the whole matter.

The most severe test a Piano can receive is constant use in a Conservatory.

READ THE FOLLOWING:

It affords me much pleasure to give you these few lines as a very sincere testimonh be Piano Fortes of your manufacture. We have now used the "Patent Arion Piano our Countries for a year, and have had a fair opportunity of iselfing likely durab uring that time. The Pianos have been played upon almost constantly, from more till night, and a plano must indeed be a good one when it will bear constant usr will howing signs of defection. As for remaining in tune, it outrivals any Piano know BLACKSMITHNIG The peculiar sweetness of tone in the treble (as compared to other Planes with the on any metal agrafic arrangement) is so striking that I have had pupils remark, while is nary metal agrano arrangement as a late home what they supposed to be one of the bor ing their lessons, that although had at at home what they supposed to be one of the bor makes of Pianos, still the treble was very wiry-toned compared with the "Arion."

What makes them still more destrable is their uniform volume of tone, which enables an artist to perform a composition in its true character.

In total, I can conscientionally endorse all that is claimed by the Arion Pian-Forte Company for their superb instruments, as I consider them superior to any other make.

Congratulating you upon the great success you have obtained in the manufacture of so perfect an instrument.

I remain yours, very truly.

HENRY SCHRODER, Director.

HENRY SUHHODER, Director. erfect an instrument. New York, September 34, 1870. CHALLENGE

To all Piano Manufacturers in the United States. Made to order, or repaired. Fine work, speciality. Give him a trial. W HEREAS. The Arion Grand and Square Pianos were again awarded the Premiums and Medals at the late Fair of the American Institute, as they were in itself and with the American Institute, as they were in itself and with the American Institute, as they were in itself and with the American Institute, as they were in itself and with the American Institute, as they were in itself and and the Arion Piano at this Fair being more to have them fully tested by a thorough impartied trial, in a public contest, than to obtain premiums; and
